DECOR SUPER WIRE CUTTER

This tool has diagonal cutting jaws to reduce frayed ends and cuts effortlessly through SuperSoftstand, Softstrand and all other brands of picture wire (ie. all sizes of braided wire, stranded wire, and coated wire). It has a built-in spring for quick, easy cutting and heavy duty construction provides dependable, long-lasting use. It is a great tool for any framing workshop.

Item #1344 ☑

MIRACLE CORD PICTURE WIRE

Made of Twaron®, an innovative synthetic fiber that is stronger than steel with exceptional flexibility. It is not stiff or twisty. Very user-friendly, it will not prick your fingers or corrode or kink. Black cord is easy to handle, easy to attach and exceptionally strong and secure. It will NOT stretch or slip. Stronger than common picture wire, very pleasant to handle, non-corrosive and combined with our unique Quick-Clip attachment method makes this the best and most advanced system for hanging most frames. The clean, attractive finished look is a major plus. Tested and proved by framers for 20 plus years.

Item #		Size/Desc.	Uses Clip #	~ Ft. per Spool	Max Wght	1 Roll
1345	☑	Light Cord	1348	1200'		
		Ideal size for smaller frames and narrow moldings.				
1346	☑	Regular Cord	1349	1000'		
		Ideal size for most regular size frames and moldings.				
1347	☑	Heavy Cord	1350	600'		
		Ideal size for most large heavy frames and moldings.				
		Clip uses two screws for added strength or where wood molding is soft.				

QUICK CLIP ATTACHMENT SYSTEM

For use with Miracle Cord (shown above). Just knot the cord and snap it in place. Softly rounded, the low-profile clip is black like the cord and is very strong. Black screws included.
